LIVING IN CHELYABINSK
For many people, Chelyabinsk is an industrial city with a huge number of metallurgical and engineering factories. Of course, it is true, but not completely: there are many beautiful parks and attractions that have no equivalent.

GETTING AROUND IN CHELYABINSK
There are many possibilities to move around the city fast and safe. Great diversity of options may help you to choose the best one for you.

Minibus (marshrutka) is the most popular option to get around the city. There are many routes and directions what may help you to get at any point of city you want.

Buses, trams and trolleybuses are not as popular, but they may be useful in some cases.
You can book the cab over your phone using the app like Yandex Go (visit https://go.yandex/ru_ru/).
MAJOR ATTRACTIONS IN CHELYABINSK

**Kirovka, a pedestrian street**

Originally, this street was a driveway, but in 2004 it became a pedestrian street. Now you can observe many architectural monuments, cafes, and boutiques. In the past, there was the Ufa Postal Road, and there were benches and houses of merchants, many of which have remained till now.

**Chelyabinsk State Museum of Regional Studies**

The museum was opened in 1923 and currently has more than 250 thousand exhibits in its funds. The collection consists of archaeological, historical, ethnographic, natural and decorative items. The exhibitions are now moved into a modern building with multimedia equipment. One of the most popular artifacts is a large meteorite fragment that fell in Chelyabinsk in 2013.

**Holy Trinity Church**

The largest cathedral in Chelyabinsk built in 1914. The cathedral was made of red brick and crowned with a green roof. A distinctive feature of the building is the presence of many arched windows on all levels and an abundance of decorative ornaments on the facade. Inside the walls and ceiling are painted with frescos reflecting biblical themes.

**Chelyabinsk State Academic Drama Theatre**

The theatre building resembles an administrative building in some way, and it could be confused with the City Council if it weren’t the figures of theatrical masks placed on the facade. A wide alley with a flower garden in the center leads to the entrance. In the evening, the building looks very picturesque due to its professional lighting design. The theatre is located on the Revolution Square, surrounded by monumental buildings in the style of Stalin Empire.

**Gagarin Park**

A unique pineforest and Gagarin Park located in the city center. It is a great place to relax after a hard day, to enjoy the clean forest air, take a ride in the amusement park, observe some wildlife and enjoy the views of the ponds.
TELEPHONE OPERATORS

In Chelyabinsk, you can use the service of four main cellular operators:

- **MTS**  
  mts.ru

- **Tele2**  
  tele2.ru

- **Beeline**  
  beeline.ru

- **Megafon**  
  megafon.ru

They operate 3G and 4G (LTE) networks in Chelyabinsk and the suburbs. SIM-cards can be purchased in big stores but also in small shops near bus stations, etc. **We do not recommend buying SIM-cards from non-official street sellers.**

If you use your Chelyabinsk SIM-card in other Russian regions, roaming tariffs for calls, text messages and Internet surfing may apply. For more details, please, visit the operators’ websites.

For cheaper (or free) calls home, we advise you to use Skype, Viber software, or WhatsApp.

LIST OF USEFUL PHONE APPLICATIONS

We recommend downloading the following phone applications:

**ZOOM**

You will need Zoom to participate in online conferences or online classes, when there is a need to study online.
TELEGRAM/VK

These are the essential applications that you need to have on your phone, so you can always stay in touch with your friends and teachers, and receive all the useful information. Register an account on VK (Russian Social Media) at vk.com with your REAL PERSONAL INFORMATION and PHOTO and sign up to our group https://t.me/csu_international on Telegram and our group https://vk.com/csu.international on VK.

2GIS/GOOGLE.MAPS

If you do not want to get lost in our city, you definitely should have these applications, so you can always have a route to any place you desire to visit.

CITYMOBIL/UBER/YANDEX.TAXI

You can choose any of these taxi applications, so you can always get from one place to another without any difficulties.

PLUGS AND SOCKETS

Electricity throughout Russia is 220 volt/50 Hz. Standard European thin two-pin plugs are used in Russia. We recommend you to bring an adaptor for your laptop and other electronic devices.
