

The third international conference
Quantum Topology

25 June 2016

Posters

Gotin K. *Representations of braid groups*

Kaigorodova A. *Root theory and Schubert theorem*

Kudina E. *On volume of non-Euclidean simplex*

Morozov V. *Conjugation of global knots*

Nikiforov A. *Non-orientable Seifert manifolds*

Romanova E. *One class of degenerate evolution equations with fractional derivative*

Shumakova E. *Normal surfaces in Seifert manifolds*

Yndina N. *On complexity of virtual 3-manifolds*
